

# Seminarreihe BILL – Biomedical Lectures Leipzig

Vorschau 2017

19.10.2017	<b>Prof. Franck Toledo</b> INSTITUT CURIE, Paris	The Guardian of the Genome revisited : p53 down-regulates genes required for telomere maintenance, DNA repair and centromere structure
02.11.2017	<b>Dr. Kristin Seltmann</b> Institute of Molecular Health Sciences ETH Zürich	Humidity-regulated CLCA2 protects the epidermis from hyperosmotic stress: Implications for Atopic Dermatitis
09.11.2017	<b>Prof. Pascale Bomont</b> INSERM Institute for Neurosciences, Montpellier	Gigaxonin acts as the Intermediate Filament killer: mechanisms to disease implication
23.11.2017	<b>Prof. Dietmar Thal</b> KU Leuven Laboratory for Neuropathology	Histological and biochemical staging of Alzheimer's disease
07.12.2017	<b>Prof. Susanne Hartmann</b> Freie Universität Berlin Institute for Immunology Centre for Infection Medicine	title to be announced
14.12.2017	<b>Prof. Andreas Thum</b> Universität Leipzig Institut für Biologie	The mini-brain of the Drosophila larvae - how learning and memory occurs
11.01.2018	<b>N.N</b>	
25.01.2018	<b>Dr. Gerd Müller</b> Universität Leipzig Molekular Onkologie	Mechanisms of cell cycle-dependent gene regulation

**Ort: Sächsischer Inkubator für klinische Translation (SIKT) Philipp-Rosenthal-Str. 55, 04103 Leipzig**  
**Raum:103**  
**Zeit: 17 Uhr**

Wir laden Sie herzlich ein;  
Prof. Dr. Thomas Magin, Prof. em. Dr. Sunna Hauschildt, Prof.em. Dr. Frank Emmrich
